

# Parking policies update

# Parking and development issues

Amount, location and design of parking in new development

Front garden parking

Impacts on conservation areas

Implementation – e.g. interaction with residents parking schemes

## Current Local Plan policy

Provide an **appropriate level of safe, secure, accessible and usable parking provision** having regard to the parking standards, the parking management regime and the level of accessibility by walking, cycling and public transport...

Proposals for parking, servicing and loading should make **effective and efficient use of land**

# Approaches to car parking

Influences on successful approaches to parking:

- Design of parking, car ownership, levels of accessibility, parking management regimes in the area, management of parking space

Potential response:

- Maximum standards, minimum standards

Myrtle Drive

Plans for Romney House site

# **Next consultation**

Approach to parking in residential development

Electric vehicle charging

Enhanced cycle provision in office development

**Views on approaches to parking welcomed**
